

IBM Cognos Query Studio: Build Ad Hoc Reports (V10.1/10.2) Information

Length: 1.0 Day
Ref: B5150G

Delivery method: Classroom

Price: EUR

Overview

IBM Cognos Query Studio: Build Ad Hoc Reports (V10.1/10.2) is a one-day, instructor-led course designed for business authors who want to learn how to create, modify and organize ad hoc reports. This course covers how to use different report capabilities, how to graphically display data, and how to create reports with a consistent look and feel through the use of templates. The course also covers basic administrative tasks, such as scheduling reports and delivering reports in different formats (e.g. HTML, PDF, Excel).

Please Note: Screen captures and labs in this course are taken from the V10.1 of the product. However, the concepts, procedures, and tasks are all applicable to a V10.2 environment and are suitable for V10.2 user education.

Public

This course is intended for business authors.

Prerequisites

You should have:

- Knowledge of your business requirements
- Experience using basic Windows **and** Web functionality
- Experience using a Web browser

Objective

Please refer to the Course Overview for description information.

Topics

Overview of IBM Cognos BI

- Discuss IBM Cognos and Performance Management
- Describe IBM Cognos BI components

- Describe IBM Cognos architecture at a high level
- Define IBM Cognos BI groups and roles

Introduction to Query Studio

- List the packages available for reporting
