

Dimensions Administration (Paper) Paper Only - ILT Information

Length: 1.0 Day
Ref: 0M013G
Delivery method: Classroom
Price: EUR

Overview

The training consists of 2 parts: Questionnaire Creation and Questionnaire formatting.

The SPSS Paper Solution begins with designing the questionnaire. This course gives designers a thorough understanding of Quanquest GUI features applicable to constructing scripts for paper questionnaires.

Next, we export the document to Paper. Paper has been designed for ease of use. Yet, it is incredibly powerful and flexible. Through the use of Looks or "themes", anyone, even with minimal computing skills, can create stylish paper questionnaires.

Public

This basic course is for anyone responsible for creating the "look and feel" of IBM SPSS Data Collection paper surveys.

Prerequisites

You should have:

- Familiarity with Microsoft Word.
- Understanding of survey creation with IBM SPSS Data Collection.

Objective

Please refer to course overview.
