Overview

This 3-day instructor-led course provides the skills necessary to use and manage IBM® Sterling Connect:Direct® V4.7.0 in the Windows environment. This course is valuable for end-users and application programmers intending to use Sterling Connect:Direct®. It is also valuable to systems administrators, operators, production control personnel, help desk staff, and support personnel responsible for Sterling Connect:Direct® operations.

This course explains the Windows environment for Sterling Connect:Direct, installation and configuration procedures, process language, and interfaces. The students will also learn the components of different user interfaces of Sterling Connect:Direct and troubleshooting methods.

Public

This intermediate course is designed for:

- Systems administrators
- Operators
- Production control personnel
- Help desk staff
- Support personnel responsible for Sterling Connect:Direct operations.

Prerequisites

You should have:

- Awareness of File Transfer protocol (FTP) **and** Managed File Transfer (MFT) functionality.

Objective

After completing this course, students should be able to:

- Explain the architecture and functionalities of Sterling Connect:Direct for Windows
- Install Sterling Connect:Direct for Windows
- Create, submit and track processes
- Navigate through Sterling Connect:Direct interfaces
- Describe the importance of Sterling Connect:Direct Software Development Kit
- Describe and configure File Agent
- Explain about performance and tuning tasks
- Diagnose and troubleshoot common errors
- Determine the need for Sterling File Accelerator

Topics

Course Overview

UNIT 1. INTRODUCTION AND INSTALLATION

- Lesson 1. Overview of Connect:Direct
- Lesson 2. Architecture of Connect:Direct
- Lesson 3. Installation of Connect:Direct

UNIT 2. PROCESSES

- Lesson 1. Process Language
- Lesson 2. Process Monitor – TCQ
- Lesson 3. Audit Trail – Statistics
- Lesson 4. Command Line Interface
- Lesson 5. Client Utilities

UNIT 3. APPLICATIONS

- Lesson 1. Connect:Direct Browser User Interface
- Lesson 2. Connect:Direct Software Developers Kit – SDK
- Lesson 3. Connect:Direct File Agent Configuration
- Lesson 4. Process Data Flow

UNIT 4. SYSTEM HEALTH

- Lesson 1. Performance and Tuning
- Lesson 2. Diagnostic Tools and Procedures
- Lesson 3. UDT for Connect:Direct

Course Wrap Up
